

Some administrativa...

# Misc.

- Smallest composite is already small enough?
- Grades will be entered soon for exam 1
  - You must come to office hours next week –or– tell me that you're coming a few business days before to look over your exam in office hours
    - 100 if you did everything right
    - 85 if you basically did everything right but your  $e$ ,  $d$ , and  $n$  aren't a usable RSA scheme

# Proposed syllabus change

- House that wins gets 120/100 on the final without taking it
- Other houses still have to take the exam
  - 2<sup>nd</sup> place gets +18 added to their score
  - 3<sup>rd</sup> place gets +10 added to their score
  - 4<sup>th</sup> place gets +5 added to their score
